Note how many thefts of threat / ult. / demo  
to finance are merely obligatory before W.N.

How may have ever reflected on  
this of H&N under the actual state of  
existing? or, the present Agency exists?

What didn't happen, from H+N

- Rauner: US "most failed & fraud on earth"

- Perhaps seeing A-bomb like file:

"convention"

= Use for minor reasons, occurred  
like H+N only

(Elite/public pop: persistent  
Elite did not reject)

"casually reasons, reasoning")

Public may not have  
against that opposition

(what if no Convention/<sup>decision</sup> article?) What then?

but they can give it;

They didn't yet have tested or  
motion to EU in real  
circumstances

(What do they think they would  
do?)

for US?

The WB situation: There is compelling, dramatic  
coal for disclosure, negotiation (search for  
refusal/rejection, alternative)  
regular decision-making body  
possible crime, trial, punishment

next point, in paper ✗ V.O. Kottos: H+N case is not aberrant,  
but typical. (However, an ultimate  
concl.)

Kottos: 1) - feelings, empathy, morality, guilt of  
those who made YES (leaders)

and those who obey,  
without a problem!

/  
for H+N -  
scientific criticism

for Tokyo: McN  
Collaboration

2) Why so few who quit, refuse?  
(Rothbard)

3) Why only a minority who have qualms?

4) Why do they let their voices be silent (when  
over-worked) with so little (no) protest?

Except NL, KS,  
MV, Tomm

5) Why NO WB? Resister, after protest, RISK-TAKER?

X (if not) for H+N, H-bomb: WHEN? We've been treated

Hans Maenbel was Oppen / Cernot "believe"  
that the role (or axis - much - of US)  
was commercial

in fact, money  
to getty position control of Bank  
- getty "int. willingness to transfer  
souigkeit"

How could USC use lead to US willingness  
to give up souigkeit  
monopoly  
control  
(as further as, that)  
to an int. authority?

How would it lead to thought:

"It must not be used again" (yes)  
EVEN BY US ?

Why not?

Was it right the first time,  
or not?

If yes - why should we not be  
used to use it again - to save its use?  
to protect Europe?

If some cities justified it,  
won't there be others that  
do - if not, how open:  
Were having those reasons?

(to some "with  
interests," i.e.  
not - long (units)  
were)

ANYWAY: SO = JAPAN

Don't supporters of H+M feel it would have  
been justified, say in 1944, vs. Germany?

When, not? Russia?

April?
